October—December 2020 Consumer and Family  
 Satisfaction and Outcomes Survey Findings

January 2021

## BACKGROUND

The Office of Mental Health and Substance Abuse Services (OMHSAS) of the Pennsylvania Department of Human Services requires counties to assess member satisfaction with, and outcomes of, publicly funded behavioral health services provided through participating providers of Community Care. A total of 167 adults, adolescents and parent/family caregivers participated in the survey process during October–December 2020.

## RATING TREATMENT SUCCESS

**Adolescents** between 14 and 20 years of age were asked how they had improved as a direct result of the behavioral health services they received. Percentages below represent those respondents who “strongly agreed” or “agreed” with the following statements: They were also asked their opinion regarding the treatment they received from their provider. N=23

61%	Did you choose to go to this provider? (Yes).
96%	The treatment I am receiving meet my needs.
100%	Staff see me as an equal partner in my treatment .
100%	We meet at times that are convenient for me.
100%	I am included in treatment meetings.
100%	Staff helped me create a plan to deal with problems.
96%	Was able to get help within reasonable period of time.
65%	Are you aware you can file a compliant, if needed?
96%	Given clear contact information if need help.
83%	Staff talks to me about community supports & options.
95%	I manage strong feelings better.
95%	I make better choices.
87%	I don't get into trouble as often.
95%	I believe treatment is working.
100%	People I spoke to at Community Care were helpful

## RATING SATISFACTION WITH SERVICES

Adult and parent/family caregivers were asked to rate their overall satisfaction with the behavioral health services they received for themselves or their child. Percentages below represent those respondents who “strongly agreed” or “agreed” with the following statements. The questions covered the member’s perception of treatment, outcomes, treatment by the provider and staff of Community Care. The parent/ family caregivers interviewed responded on behalf of their child under 14 years of age. The table below shows survey findings, where percentages represent respondents who “strongly agreed” or “agreed” with each item, using a 5– point scale.
