BACKGROUND

The Office of Mental Health and Substance Abuse Services (OMHSAS) of the Pennsylvania Department of Human Services requires counties to assess member satisfaction with, and outcomes of, publicly funded behavioral health services provided through participating providers of Community Care. A total of 138 adults, adolescents and parent/family caregivers participated in the survey process during October–December 2025.

RATING TREATMENT SUCCESS

Adolescents between 14 and 20 years of age were asked how they had improved as a direct result of the behavioral health services they received. Percentages below represent those respondents who “strongly agreed” or “agreed” with the following statements: They were also asked their opinion regarding the treatment they received from their provider. N=21

100%	Active in planning treatment that is a good fit for me.
67%	Have you reviewed your benefits/treatment options?
100%	Staff treats me with respect/as equal partner.
100%	We meet at times that are convenient for me.
100%	Am able to get help within a reasonable amount of time.
100%	Provider helped me create a plan to deal with problems.
100%	I feel comfortable asking questions about my treatment.
86%	Aware you can file complaint/grievance, if needed?
100%	I am included in meetings about my treatment.
100%	Staff talks about community resources & supports .
100%	I manage strong feelings better.
100%	I make better choices dealing with day to day life.
86%	Was able to get help I needed within past 12 months.
100%	I believe treatment is working because I feel better.
0%	Have you had any issues/problems with provider?

RATING SATISFACTION WITH SERVICES

Adult and parent/family caregivers were asked to rate their overall satisfaction with the behavioral health services they received for themselves or their child. Percentages below represent those respondents who “strongly agreed” or “agreed” with the following statements. The questions covered the member’s perception of treatment, outcomes, treatment by the provider and staff of Community Care. The parent/family caregivers interviewed responded on behalf of their child under 14 years of age. The table below shows survey findings, where percentages represent respondents who “strongly agreed” or “agreed” with each item, using a 5– point scale.
